Galapagos Mid-Range Class Cruise

05 D - 04 N Sunday Departure

Santa Cruz - North Seymour - San Cristobal - Santa Fe

Day 01: Baltra Island

Arrival in Baltra airport and transfer to the boat. Briefing onboard about the boat and the island.

North Seymour Island The 2km trail crosses the inland of the island and explores the rocky coast, passing colonies of blue-footed boobies and magnificent frigate birds. Daphne Major and Minor can be spotted in the distance and body surfing sea lions play close to the shore. Along the shoreline marine iguanas, white coral and black lava rocks complete the visit to North Seymour.

Highlights: Rare Galápagos snakes, nesting frigate birds, swallowtail gulls and blue-footed boobies, land iguanas

Animals: Galápagos snakes, land iguanas, lava gulls, lava lizards, magnificent frigate birds, marine iguanas, mockingbirds

Difficulty: Flat, easy trail

Landing: Dry

***Note that the listed activities may differ depending of the time of the day of your visit, cruise itinerary and National Park regulations**

Meals Included: Lunch - Dinner

Day 02: San Cristobal Island

Cerro Brujo (Wizard's Hill)

One of the first sites visited by Charles Darwin, Cerro Brujo is a beautiful white-sand beach where brown pelicans, blue-footed boobies, sea lions, and marine iguanas can all be found. An onshore version of nearby Kicker Rocks, Cerro Brujo is a very striking, eroded tuff cone. There is also fantastic snorkeling in the turquoise waters.

León Dormido (Kicker Rock)

This small, distinctive island comprises two rocks which jut out of the ocean and is home to a large colony of sea birds. Kicker Rock is an excellent dive site where you could see many reef fish as well as hammerhead and Galápagos sharks. Sightings of large rays and turtles are common but not guaranteed.

Highlights: Snorkeling; beach

Animals: Sea lions, pelicans, boobies, marine iguanas

Difficulty: Easy

Landing: Wet

***Note that the listed activities may differ depending of the time of the day of your visit, cruise itinerary and National Park regulations.**

Meals Included: Breakfast - Lunch - Dinner

Day 03: Española Island

Gardner Bay has a magnificent beach with turquoise waters. Around the small islets nearby, snorkellers will find lots of fish and sometimes turtles and sharks. The bay is also frequented by a transient colony of sea lions which like to swim with you. Birds, like the endemic Hood-mockingbird and different species of Darwin finches, are omnipresent.

Suárez Point

This is one of the most outstanding wildlife areas of the archipelago, with a long list of species found along its cliffs and sand or pebble beaches. In addition to five species of nesting seabirds there are the curious and bold Española Island mockingbirds, Galápagos doves and Galápagos hawks. Several types of reptiles, including the marine iguana and the oversized lava lizard, are unique to this island.

Highlights: Beach; snorkeling

Animals: Madeiran storm petrels, marine iguanas, sea lions, turtles, sharks

Difficulty: Easy

Landing: Wet

*Note that the listed activities may differ depending of the time of the day of your visit, cruise itinerary and National Park regulations.

Meals Included: Breakfast - Lunch - Dinner

Day 04: Santa Fe Island

Is a volcanic uplift and hosts a forest of Opuntia cactus, which are the largest of the archipelago, and palo santo. Weathered cliffs provide a haven for swallow-tailed gulls, red-billed tropic birds, and seah-waters petrels. The Santa Fe species of land iguanas are often seen, as well as lava lizards. There is a picturesque turquoise lagoon and calm waters where you can snorkel amongst sea lions.

South Plaza

has one of the largest populations of land iguanas in the Galápagos. It is also home to marine iguanas and a hybrid iguana whose fathers are marine iguanas and mothers are land iguanas. There are cliffs with spectacular views and a rocky trail circumnavigates the island displaying the combination of dry and coastal vegetation zone. The island is home to enormous prickly pear cactus and the endemic succulent sesuvian.

Highlights: Land iguanas, Galápagos hawks, playful sea lion pups

Animals: Frigate birds, Galápagos hawks, land and marine iguanas, manta rays, sea turtles, sea lions, lava lizards, mockingbirds

Difficulty: Steep and uneasy trail; strenuous hike

Landing: Wet

Meals Included: Breakfast - Lunch - Dinner

Day 05: Santa Cruz Island

Charles Darwin Research Station

The CDRS is an international not-for-profit organization that provides scientific research, technical information and assistance to ensure the proper preservation of the Galápagos Islands. Visitors can learn about natural history, issues concerning the islands, and see the tortoise breeding and rearing project at work.

Highlights: Vegetation

Animals: Galápagos flycatchers, small tree-finches, woodpecker finches

Difficulty: Easy

Landing: Dry

*Note that the listed activities may differ depending of the time of the day of your visit, cruise itinerary and National Park regulations.

Meals Included: Breakfast
